Chris **Barrick**

SOFTWARE ENGINEER

Athens, GA

☐ (828) 342-2580 | ✉ cbarrick1@gmail.com | ⬛ cbarrick | 🔗 csb1024

Skills

Languages	Python, Prolog, Java, Go, JavaScript (Node.js), SQL, Shell
Platforms	Google Cloud, Anaconda, Debian/Ubuntu, Arch Linux
Technologies	Git, Scikit-learn, PyTorch, Tensorflow, Spark

Experience

UGA Institute for Artificial Intelligence *Athens, GA*

RESEARCH ASSISTANT *Aug. 2016 - May 2017*

- Developed predictive models for solar irradiance from 2TB of historical forecast data.
- Developed a data ingestion pipeline for NOAA weather forecasts in Python with xarray and netCDF.

Hayver *Atlanta, GA*

PROLOG DEVELOPER AND INTERN *May 2017 - Aug. 2017*

- Advised business leaders in the transition from a legacy Prolog system into a Java-based microservice architecture.
- Drafted a data model with support for dynamic objects on a SQL backend.

Digital Envoy *Atlanta, GA*

SOFTWARE DEVELOPMENT INTERN *May 2016 - Aug. 2016*

- Developed a system on Hive to alert for suspicious changes to weekly database releases.

Engage *Clayton, GA*

FRONTEND WEB DEVELOPER *Jul. 2013 - Jun. 2014*

- Prototyped mobile apps using web technologies with Apache Cordova.

Education

University of Georgia *Athens, GA*

M.S. ARTIFICIAL INTELLIGENCE *Aug. 2016 - May 2019*

- Thesis: *Local Solar Irradiance Prediction from Regional Numerical Weather Forecasts*.
- Interdisciplinary coursework in Computer Science, Linguistics, and Philosophy.
- **Courses:** Knowledge Based Systems, Generative Syntax, Philosophy of Language, Algorithms, Decision Making Under Uncertainty, Biomedical Informatics, Data Science II, Applied Machine Learning, Advanced Data Analytics, Data Science Practicum

University of Georgia *Athens, GA*

B.S. COMPUTER SCIENCE / B.A. COGNITIVE SCIENCE *Aug. 2011 - Dec. 2015*

- Double major with an area of emphasis in Artificial Intelligence.
- Developed a conditional term-rewriting system in Prolog as a directed study in AI.
- **Select courses:** Model Theory, Symbolic Programming, Evolutionary Algorithms, Artificial Intelligence, Linear Algebra, Multivariable Calculus, Cognitive Psychology, Philosophical Psychology, Computer Networks, Databases

Organizations

2018	**CSIP: Computer Science Interview Prep**, Vice President	*Oct. 2018 - May 2019*
2018	**DELUG: Deep Learning @ UGA**, Officer	*Nov. 2017 - Apr. 2018*

Publications

2017	**Solar Radiation Prediction Improvement Using Weather Forecasts**, Sanders, <u>Barrick</u>, Maier, Rasheed.	*IEEE ICMLA*
